FUBUKI - SS26

Spring/Summer 26' marks a huge milestone for FUBUKI as it will be our first ever - real - Spring/Summer season. The idea to drop a, for us, "off-season collection", started to grow back in 2022 when a pack of people (mainly customers and ambassadors) began expressing their need for a "summer fubuki". At first, we didn't take these wishes very seriously. As they came to grow in number, however, we decided that the least we could do was to give the idea a little attention. Once we had play around a little with idea, a vision appeared. The notion of designing something beyond our Niseko line, yet, still within the same family or category suddenly became rather appealing. Hence, a phase of creative experimentation was initiated. A couple of models quickly became several models, a few drawings several drawings, and a handful of samples a bunch of samples. The final results are the three models we're presenting in this catalogue - a limited set of products that we can't wait to now go wide with. "Summer fubukis" now exist and they're not your ordinary slippers/rain boots. We call them Okinawa and Nozawa.

A very limited pre-run was released in April 2025 to tease the market and collect important customer feedback. The feedback collected during the "test phase" (SS25) has been turned into improvements and important insights for SS26.

Kalle Norman (CEO) & Christofer Ljunggren (CMO)

OKINAWA

Okinawa is a non-insulated version of its look-alike cousin, Niseko. It's a rain boot, however, not a typical rain boot. With a shell made from waterproof EVA and not rubber or PVC, Okinawa is a much lighter boot than many of its competitors. The transparent outer makes it perfectly suitable for use on boat decks or other surfaces that you don't want to leave marks on. It comes with a felt insole that can be easily replaced.

Materials

- Upper (Shell): 100% EVA
- Sole: 100% Synthetic Rubber
- Insole: 95% Acrylic / 5% Aluminium Foil

NOZAWA

Nozawa is our idea of what a stylish and functional outdoor slipper should look and feel like. The tough outer shell together with the soft inner lining make the model super durable, incredibly comfy, and very easy to slip into. Wear it on the dock, on the late season après ski, or in the city. You set the limits when it comes to when and where this slipper can be used, not the slipper itself. Note that the product features the same interchangeable felt insole as the rest of the products in the FUBUKI family.

Materials

- Upper (Shell): 100% EVA
- Sole: 100% Synthetic Rubber
- Lining: 50% Wool / 50% Recycled Polyester
- Insole: 95% Acrylic, 5% Aluminium
